

# SAFETY DATA SHEET

## 1. Identification

<b>Product Identifier</b>	<b>Economy Solid Dish</b>	
<b>Other means of identification</b>	CU-5245-S	
<b>Product code</b>		
<b>Recommended use</b>	Solid dish detergent.	
<b>Recommended restrictions</b>	Use as directed	
<b>Manufacturer information</b>		
<b>Company name</b>	Chemical Universe, Inc.	
<b>Address</b>	1133 Saline St. North Kansas City, MO 64116	
<b>Telephone</b>	(816) 471-3602	
<b>Fax</b>	(816) 474-3302	
<b>Emergency phone number</b>	PERS	(800) 633-8253
	24-hour Emergency	(800) 633-8253

## 2. Hazard(s) Identification

<b>Physical hazards</b>	Not classified.	
<b>Health hazards</b>	Acute toxicity, oral	Category 4
	Serious eye damage	Category 1
	Skin corrosion	Category 1A
<b>Environmental hazards</b>	Not classified.	
<b>OSHA defined hazards</b>	None.	
<b>Label elements</b>		

<b>Signal word</b>	<b>DANGER</b>
<b>Hazard statement</b>	Harmful if swallowed. Causes severe skin burns and eye damage. May corrode metals
<b>Precautionary statement</b>	
<b>Prevention</b>	Wash hands and exposed skin thoroughly after handling. Do not eat, drink, or smoke when using this product. Do not breathe dust or mists. Wear protective gloves/protective clothing/eye protection/face protection.
<b>Response</b>	<b>IF SWALLOWED:</b> Immediately call a POISON CENTER/doctor/medical professional. Specific treatment: See section 4 on the Safety Data Sheet. Rinse mouth. Do NOT induce vomiting. <b>IF ON SKIN</b> (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. <b>IF INHALED:</b> Remove person to fresh air and keep comfortable for breathing. Keep victim under observation to aid if respiratory distress occurs. <b>IF IN EYES:</b> Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Rinse eyes liberally for a minimum of 7 minutes where practicable
<b>Storage</b>	Store locked up.
<b>Disposal</b>	Dispose of contents/containers in accordance with local/regional/national/international regulations.

# SAFETY DATA SHEET

Hazard(s) not otherwise classified (HNOC) None.  
Supplemental information None.

## 3. Composition/information on ingredients

Mixture Component(s)		
Chemical name	CAS number	%
Sodium hydroxide	1310-73-2	20-30
Other components below reportable levels		70-80

## 4. First-aid measures

**Inhalation** Move to fresh air. Call a physician if symptoms develop or persist.

**Skin contact** Remove contaminated clothing immediately and wash skin with soap and water. Neutralize burns with vinegar. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.

**Eye contact** Rinse with water for at least 15 minutes. Remove contact lenses if present and easy to do so. Immediately call a physician or transport to hospital.

**Ingestion** Rinse mouth. Get medical attention immediately. Do not induce vomiting.

**Most important symptoms/effects, acute and delayed** Can cause serious eye damage. Can cause burning sensation in affected areas. Sodium hydroxide is extremely destructive to mucous membranes. See section 8 for personal protection equipment.

**Indication of immediate medical attention and special treatment needed** Provide general support measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

**General information** Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse. Use with extreme caution.

## 5. Fire-fighting measures

**Suitable extinguishing media** Water fog. Foam. Dry chemical powder. Carbon dioxide (CO<sub>2</sub>).

**Unsuitable extinguishing media** Do not use water jet as an extinguisher, as this will spread the fire.

**Specific hazards arising from the chemical** During fire, gases hazardous to health may be formed. This product is easily dissolved in water and will create a strong alkaline solution. It may be corrosive to aluminum and transition metals

**Special protective equipment and precautions for firefighters** Self-contained breathing apparatus and full protecting clothing must be worn in case of fire.

**Fire-fighting equipment/instructions** Move containers from fire area if you can do so without risk.

**Specific methods** Use standard firefighting procedures and consider the hazards of other involved materials.

**General fire hazards** No unusual fire or explosion hazards noted.

## 6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures** Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Avoid inhalation of vapors or mists. Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

# SAFETY DATA SHEET

## Methods and materials for containment and cleaning up

This product is fully miscible in water.

Large spills: Place the material in containers using a broom or shovel. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.

Small spills: Sweep up and put into containers. Clean surface thoroughly with water and dilute acidic (vinegar) solution to remove residual contamination.

Never return spills to original container for re-use. For waste disposal, see section 13 of the SDS.

## Environmental precautions

Avoid discharge into surface drainage paths and other areas not consistent with package labeling.

## 7. Handling and storage

### Precautions for safe handling

Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

### Conditions for safe storage, including any incompatibilities

Store in original tightly closed container. Store away from incompatible materials (see section 10 of the SDS).

## 8. Exposure controls/personal protection

### Occupational exposure limits

#### US OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	Value
Sodium hydroxide	PEL	2 mg/m <sup>3</sup>

#### US ACGIH Threshold Limit Values

Components	Type	Value
Sodium hydroxide	STEL	2 mg/m <sup>3</sup>

### Biological limit values

No information.

### Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels to an acceptable level. It is recommended that users of this product perform a risk assessment to determine the appropriate personal protective equipment.

### Individual protection measures, such as personal protective equipment

#### Eye/face protection

Avoid contact with eyes. Wear safety glasses with side shields (or goggles).

#### Skin protection

##### Hand protection

Wear appropriate chemical resistant gloves. Neoprene and nitrile rubber are industry-accepted barrier materials

##### Other

Wear appropriate chemical resistant clothing.

#### Respiratory protection

In case of insufficient ventilation, wear suitable respiratory equipment.

#### Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

### General hygiene considerations

When using do not smoke or use chewing tobacco. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or

# SAFETY DATA SHEET

smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

## 9. Physical and chemical properties

### Appearance

Physical State	Solid
Color	Pink
Odor	Aromatic.
Odor threshold	Not available.
pH	13-14 (as 10% solution)
Melting/freezing point	Not available.
Initial boiling point and boiling range	Not available
Flash point	Not applicable.
Evaporation rate	Not available.
Flammability	Not available.
Flammability Limits	
Upper	Not available.
Lower	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Specific gravity (water=1)	Not available.
Solubility in water	Soluble. > 1,100 g/l
Partition coefficient (n-octanol/water)	Not applicable
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.

## 10. Stability and reactivity

Reactivity	This product is stable and non-reactive under normal conditions of use.
Chemical stability	Material is stable under normal conditions. Store in a cool dark place.
Possibility of hazardous reactions	Hazardous polymerization does not occur
Conditions to avoid	Avoid storage in elevated temperatures.
Incompatible materials	Bases, amines, alkaline and ferrous metals.
Hazardous decomposition products	Hydrogen and chlorine gases. In case of fire see section 5.

## 11. Toxicological information

### Information on likely routes of exposure

Ingestion	Do not ingest. May be harmful if swallowed.
Inhalation	Do not inhale. May cause damage to the upper respiratory tract.
Skin contact	Can cause severe skin burns.
Eye contact	Can cause serious eye damage.

# SAFETY DATA SHEET

**Symptoms related to the physical, chemical and toxicological characteristics** Coughing, wheezing, shortness of breath.

**Acute toxicity** Harmful if swallowed.

Product Economy Solid Dish (CAS mixture)		
Exposure Classification	Route and Species	LD <sub>50</sub> /LC <sub>50</sub>
Acute	Oral, rat	1,900 mg/kg (estimated)
Acute	Dermal, rabbit	> 12,400 mg/kg (literature)

\*Estimates for product may be based on additional component data not shown

**Skin corrosion/irritation** Causes severe skin burns.  
**Serious eye damage/ irritation** Causes serious eye damage.  
**Respiratory sensitization** Not considered a respiratory sensitizer.  
**Skin sensitization** Not considered a skin sensitizer.  
**Germ cell mutagenicity** No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.  
**Carcinogenicity** Not considered a carcinogen.  
**OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)** Not Listed.  
**Reproductive toxicity** No data available.  
**Specific target organ toxicity – single exposure** No data available.  
**Specific target organ toxicity – repeated exposure** No data available.  
**Aspiration hazard** No data available.

## 12. Ecological information

Ecotoxicity		
Product Economy Solid Dish (CAS mixture)		
Aquatic Receptor	Species	Test Thresholds
Fish	Fathead minnow	LC <sub>50</sub> = 110 mg/L estimated
Crustacea	Daphnia Magna	EC <sub>50</sub> = 145 mg/L estimated

\*Estimates for product may be based on additional component data not shown

**Persistence and degradability** No data available. Chemicals of this class are not expected to be persistent in an open, aerobic environment  
**Bio-accumulative potential** Bio-accumulative potential is very low.  
**Mobility in soil** No data available. Ionic elements in aqueous solutions are expected to demonstrate high mobility in saturated or semi-saturated low-clay soils  
**Other adverse effects** No known ecological damage caused by this product. In higher concentrations this product will significantly alter pH of aqueous systems and negatively affect organisms within that system

## 13. Disposal considerations

**Disposal instructions** Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.  
**Local disposal regulations** Dispose in accordance with all applicable regulations  
**Hazardous waste code** The waste code should be assigned in discussion between the user, the producer and the waste disposal company. As packaged, this product is not believed to meet criteria defining RCRA hazardous wastes when disposed. (40 CFR Part 261, Subpart C). In ionic

solution it may meet criteria defining a D002 (corrosive) hazardous waste. Before selecting disposal method, ensure that the waste materials have been properly assessed and, as necessary, tested to confirm regulatory status.

**Waste from residues/unused product** Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner. (see: Disposal instructions).

**Contaminated packaging** Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may contain product residue, follow label warnings even after container is emptied.

## 14. Transport information

### DOT

<b>UN number</b>	UN1823
<b>UN proper shipping name</b>	Sodium hydroxide, solid
<b>Transport hazard class(es)</b>	
<b>Class</b>	8
<b>Subsidiary risk</b>	-
<b>Packaging group</b>	II
<b>Marine pollutant</b>	No
<b>Special precautions for user</b>	Read safety instructions, SDS, and emergency procedures before handling.
<b>Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code</b>	Not intended to be transported in bulk.
<b>DOT Label</b>	

## 15. Regulatory information

### US federal regulations

<b>SARA 302 Extremely hazardous substance</b>	Not listed.
<b>SARA 304 Emergency release notification</b>	Not listed.
<b>SARA 311/312 Hazard Categories</b>	
Immediate Hazard - Yes	
Delayed Hazard – No	
Fire Hazard – No	
Pressure Hazard – No	
Reactivity Hazard – No	
<b>SARA 313 (TRI reporting)</b>	Not listed

# SAFETY DATA SHEET

California Proposition 65

**California Safe Drinking Water and Toxic Enforcement Act of 1986**

This product is not known to contain any chemicals currently listed as carcinogens or reproductive toxins under California Proposition 65 at levels which would be subject to threshold determination and Safe Harbor notification (1/2019)

## 16. Other information, including date of preparation or last revision

Issue date 6/9/2016  
 Revision date 8/27/2019  
 Version # 2  
 HMIS® ratings Health: 3  
 Flammability: 0  
 Physical hazard: 1

NFPA ratings Health: 3  
 Flammability: 0  
 Instability: 0

### Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, and have been obtained from resources believed to be reliable. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal, and release and is not to be considered a warranty or quality specification. The information related only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified by the text.

### Revision information

8/27/2019  
 Amend physical data; Change eye hazard category back to 1 (definition). Add toxicology info (updated). General format update; Refine composition table, amend physical data; Update toxicology thresholds and environmental fate information; Text clarification amendments Sections 5,6,8,9 and 12. PPE recommendation updated; California Proposition 65 notice; HMIS and NFPA pictograms added
