PHYSICAL PROPERTIES

Appearance: pink/red Liquid

Specific Gravity: 1.02

Odor: Detergent

Ph (Conc.): 6-7

Flash Point: >385°F (196°C)

PACKAGING

4X1 gal

ABOUT THIS PRODUCT

Bar Glass Wash is a sparkling clear liquid detergent which leaves glassware spotless and shiny. It removes tough soils, such as lipstick, grease, dried beer, protein soil and many others often encountered without the need for scrubbing. Used as directed, this product rinses free without a film. It also will not interfere with the sanitation action of chlorine or quaternary ammonium products when the three tank or sink system is employed. This detergent is very mild and repeated use leaves hand smooth and soft without irritation.

DIRECTIONS

Manual 3 Compartment Sinks:

1. Mix 1-4 ounces per 4 gallons of warm or hot water in the first sink.
2. Soak glassware in solution for a few minutes.
3. Wipe off tough soils with a sponge.
4. Rinse in clear, warm water in second sink.
5. Dip glasses in sink 3 containing Sani-T at the proper use level.
6. Place glasses top down on a drain rack or a clean, absorbent towel and allow to air dry.

NOTE: Do NOT overuse this detergent OR the sanitizer. This may result in a taste left in the glasses. Properly used, this detergent will not leave any residual taste or odor.

PRECAUTIONARY STATEMENTS

Prevention: If skin irritation occurs: Get medical advice/attention
