

## PHYSICAL PROPERTIES

**Appearance:** Dark Green Liquid

**Specific Gravity:** 1.04

**Odor:** Sweet

**Ph (Conc.):** 12.5-13.5

**Flash Point:** N/A

## PACKAGING

12x32 oz, 4X1 gal

# Adios

## SOAP SCUM & FILM REMOVER

### ABOUT THIS PRODUCT

Adios is a unique formula that contains no alkali, heavy acids or other corrosive chemicals, yet it easily removes metallic soap deposits found on mosaic floors, lavatories, drinking fountains, bath tubs and shower stalls. It restores soiled areas to original color and brightness.

**USE ON:** Tile, Porcelain, Terrazzo, Corian, Rubber, Fiberglass, Chrome, Grout, Glass Doors, Plastic Curtains, Sinks, Water Fountains, etc.

### DIRECTIONS

For removing alkali buildup and soap scum from terrazzo, marble, travertine, terra cotta magnesite and concrete-mix one part of the chemical to four parts water. Allow solution to remain in contact with the surface for 20–30 minutes. Pick up with a mop and rinse.

On areas where accumulation is heavy-the chemical should be mixed with equal parts water.

For cleaning lavatories, drinking fountains, bath tubs and shower stalls-apply freely with sprayer, sponge or soft brush. Scour gently with brush or stainless steel sponge. Rinse well with clean water.

### PRECAUTIONARY STATEMENTS

**Prevention:** Wear eye protection/face protection. Wash hands and exposed skin thoroughly after handling. Wear protective gloves. **Response:** IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor/medical professional. IF ON SKIN: Wash with plenty of water for at least 15 minutes. Specific treatment (see section 4 on the Safety Data Sheet). If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.
