

## PHYSICAL PROPERTIES

**Appearance:** Milky White Liquid

**Specific Gravity:** 1.03

**Odor:** Characteristic

**Ph (Conc.):** 7-8

**Flash Point:** >212°F (100°C)

## PACKAGING

1, 5 & 55 Gallons

# Classic Gold

## HIGH SOLIDS FLOOR FINISH

## ABOUT THIS PRODUCT

Classic Gold Floor Finish is a synthetic blend of high gloss polymers, leveling agents and drying solvents. Classic Gold Finish contains a new generation polymer that is chemically programmed to keep the finish shining brighter and wearing longer. Classic Gold Floor Finish prevents scratching and gives the floor an exceptionally long wear life. Classic Gold sets a completely new standard for floor finishes. It can be used on all resilient floors-vinyl asbestos, asphalt tile, vinyl sheet and tile, rubber, reinforced vinyl, and linoleum.

## DIRECTIONS

1. Clear the area to be finished of all movable objects.
2. Sweep the floor clean of loose dirt and rubbish.
3. Apply stripper and remove all old wax and floor finish. Repeat if necessary.
4. Rinse the floor as thoroughly as possible and let dry.
5. Work with clean equipment and mop on a thin coat of finish. Allow to dry thoroughly (at least 30-45 minutes) before applying another coat.
6. A minimum base of 4-5 coats is required before burnishing.

**MAINTENANCE:** Sweep daily with a dust mop or cloth. Clean with a neutral pH cleaner with a mop bucket or automatic scrubber.

Light cleaning will remove surface soils and stains and maintain gloss and color. Dry buff or burnish after cleaning to obtain a wet look. Heavy traffic lanes should be treated with a spray buff or restorer.

**PAD SUGGESTIONS:** Natural fiber pads are the preferred. A tan, beige, or light blue synthetic pads can also be used.

## PRECAUTIONARY STATEMENTS

**Prevention:** Wash hands and exposed skin thoroughly after handling. Wear eye protection/face protection. If skin irritation occurs: Get medical advice/attention. **Response:** IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
