

Conseal SB

SOLVENT BASE CONCRETE SEAL

ABOUT THIS PRODUCT

This modern advancement in floor care technology provides a durable and semi-permanent concrete finish. The outstanding leveling characteristics enable application using a single-pass applicator. Conseal SB Concrete Seal produces a uniform film for the ultimate in beauty and performance.

FEATURES

- Superior leveling characteristics
- A hard, durable finish
- High abrasion and impact resistance
- Light initial color will not discolor floors

Recommended Uses: This product is intended for use as both an initial seal and subsequent finish coat on, warehouse, factory, garage or other institutional and industrial concrete floors. Apply a minimum of 2 coats of this product.

DIRECTIONS

Recoating previously finished floors: Clean floors by damp mopping or wet scrubbing and allow to dry. To abrade the floor use a stiff bristle brush with a scrubber or buffer to remove soils, contamination and black marks. If using a rotary floor machine overlapping 1 to 2". Tack or rinse the floor with clear water to remove dust residues. Apply finish with applicator or roller. In using a single pass applicator, give special attention to moving at a slow walk and run 1" to 2" puddle in front of the applicator head, overlapping each pass approximately 5" angling the applicator head to allow excess finish to tail off the side toward the unfinished floor where the excess can be further leveled on the next pass.
