

Industri-Zyme

HEAVY DUTY DEGREASER

PHYSICAL PROPERTIES

Appearance: Blue Liquid

Specific Gravity: 1.0

Odor: Butyl

Ph (Conc.): 12-13

Flash Point: >212°F (100°C)

PACKAGING

Gallon Bottles

ABOUT THIS PRODUCT

Industri-Zyme is a new advancement in industrial cleaning and degreasing. Typical industrial degreasers use high pH caustics and solvents to melt greases and oils. Industri-Zyme is formulated with a lower pH utilizing a synergistic surfactant package and multiple strains of grease destroying microbes. The surfactants work to loosen soils so they can be digested and removed by the enzymes. Industri-Zyme contains no caustics, bleach, or butyl. Industri-Zyme can be used for heavy duty cleaning or daily light duty cleaning. With its mild pH, Industri-Zyme can be used on any surface not harmed by water.

DIRECTIONS

Use Industri-Zyme in Trigger Sprayers, Mop Buckets, Autoscrubbers, or Pressure Washer.

Light Duty - Dilute 2 to 4 ounces per gallon of water

Medium Duty - Dilute 4 to 6 ounces per gallon of water

Heavy Duty - Dilute 6 to 12 ounces per gallon

PRECAUTIONARY STATEMENTS

Prevention: Wash hands and exposed skin thoroughly after handling.

Wear eye protection/face protection.

Response: IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing. If eye

irritation persists: Get medical advice/attention.
