

PHYSICAL PROPERTIES

Appearance: Clear Liquid

Specific Gravity: 1.03

Odor: Mint

Ph (Conc.): 0-1

Flash Point: N/A

PACKAGING

4X1 gal, 5 gal

QT Magic

QUARRY & CERAMIC TILE CLEANER

ABOUT THIS PRODUCT

QT Magic is a blend of organic acids, detergents and water conditioning agents designed to remove alkaline scale and deposits on hard surfaces such as stone floors and other mineral based surfaces. QT Magic is an acid based product. Always test on surface to be cleaned first to insure no surface damage can occur.

Recommended Uses: Use on quarry tile, ceramic tile, brick, or concrete. Do not allow product to come in contact with nylon carpet or polished marble.

DIRECTIONS

Use caution when cleaning because floor may become slippery as a result of grease and oil residue. Remove all food equipment from area. When in doubt about the use of QT MAGIC on a particular surface, try on a small, inconspicuous surface first.

Daily Cleaning: Dilute QT Magic at a rate of 20:1 (6oz./gal). Using a mop, apply product directly from mop bucket. Do not wring out the mop. Spread evenly over the entire floor using an aggressive deck brush. Allow to remain on surface for five minutes. Pick up residue with a clean mop or a wet/dry vacuum. Change the rinse water often to avoid re-deposit of soil on the floor.

Heavy Duty Cleaning: For a more aggressive application of QT MAGIC a dilution rate of 4:1 (32 oz./gal) is recommended to clean a heavily soiled floor. Allow product to remain on surface for 10 minutes; scrub floor thoroughly with an aggressive deck brush or a 175 rpm floor machine equipped with an aggressive brush. Make sure grout is cleaned thoroughly; remove residue with a floor squeegee; rinse thoroughly with clean water; and dry with a clean mop.

PRECAUTIONARY STATEMENTS

Prevention: Keep only in original container. Do not breathe dusts or mists. Wash skin thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. **Response:** Absorb spillage to prevent material damage. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. IF INHALED: Remove person to fresh air and keep comfortable breathing. Immediately call a POISON CENTER/doctor/medical professional. Specific treatment (see supplemental information on this label). IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. **Storage:** Store in corrosive resistant container with a resistant inner lining. Store locked up. **Disposal:** Dispose of contents/container in accordance with local/regional/ national/international regulations.
