

## PHYSICAL PROPERTIES

**Appearance:** Clear Liquid

**Specific Gravity:** 1.05

**Odor:** Sweet

**Ph (Conc.):** 13.5

**Flash Point:** >212°F (100°C)

## PACKAGING

4X1 gal, 5 gal, 55 gal

# Ultimate Stone & Grout

**INTENSIVE CLEANER & RESTORER**

## ABOUT THIS PRODUCT

Ultimate Stone and Grout is a concentrated heavy duty alkaline cleaner and restorer for deep cleaning of heavily soiled tile and grout. Safe for use on all polished surfaces. Ultimate Stone & Grout is unmatched in it's ability to clean and restore stone and grout to it's original color. This non acid formula is safe to use on natural stone and will not etch the surface of the stone. You should always use a Alkaline based product on stone and grout first to remove greases, oils and any sealers on the surface.

If further cleaning is needed an acid product can be used as a second phase of restoration. If an acid product is used as a second step you should rinse with Ultimate Stone & Grout to restore the pH of the stone and grout. Ultimate Stone & Grout Intensive Cleaner removes dark build-up of greases and soils that are typically imbedded in stone floors and grout.

**Use On:** Safe for all stone surfaces. Always test a small area to check for desired outcome.

**Equipment:** Mop and Bucket, Scrub Brushes, or Autoscrubber depending on application.

**Coverage:** 2750 ft/gallon

## DIRECTIONS

Protect all adjacent surfaces with masking film or plastic. Thoroughly wet area to be cleaned first.

1. To deep clean mix at 1 part cleaner to 10 parts water. (13 oz. per gallon)
2. To remove wax and light sealers mix at 1 part cleaner to 8 parts water. (16 oz. per gallon)
3. Let Ultimate Stone & Grout Intensive Cleaner act on the surface for a short time. Keep surface wet.
4. You may scrub heavily soiled areas with a hard bristle brush.
5. Rinse the floor with fresh water. Use a clean mop and pick up excess water with wet-vac or autoscrubber.
