

HD Detergent

HEAVY DUTY LAUNDRY DETERGENT

PHYSICAL PROPERTIES

Appearance: Dark Blue Liquid

Specific Gravity: 1.15

Odor: Indistinct

Ph (Conc.): 14

Flash Point: N/A

PACKAGING

4X1 gal

ABOUT THIS PRODUCT

HD Detergent combines a laundry builder with a detergent to increase pH and remove soil all in one product. The alkaline pH of HD Detergent speeds up soil removal during washing by allowing the individual fibers of a fabric to open up which expedites entrapped soil release. This product is a highly alkaline product that also contains water softening and soil antiredeposition agents to aid in the washing process.

DIRECTIONS

USE DILUTION: Varies due to load size and environmental conditions.

1. Pre-sort laundry prior to wash.
2. Pre-soak and/or pre-spot laundry when necessary.
3. Place proper amount of soiled linen into laundry machine.
4. In wash cycle, feed this product directly from shipping container.
5. When bleaching, feed a recommended liquid laundry destainer into the laundry machine directly from the shipping container. Be sure to defeat bleach switch on the panel if you are washing colored fabric.
6. When souring and softening, feed a recommended liquid sour and softener into the laundry machine directly from the shipping container. Works best in the final rinse cycle. A final pH of 5.5-6.5 is recommended for the linen.

EQUIPMENT: Recommended automatic liquid laundry injection system.

NOTE: Concentrations will vary due to environmental conditions and load size. Your sanitation specialist will adjust properly to meet your needs.
