**CARPET SPOTTER & PRE-SPRAY**

**PHYSICAL PROPERTIES**

- Appearance:** Clear Liquid
- Specific Gravity:** 1.0
- Odor:** Cherry Almond
- Ph (Conc.):** 12-13
- Flash Point:** >212°F (100°C)

**PACKAGING**

4X64 oz

**ABOUT THIS PRODUCT**

LockNLoad Jr. #9 Carpet Spotter & Prespray is a specialized formulation used to pre-spot carpet, rugs, and upholstery prior to overall cleaning, or as a traffic lane prespray. It can emulsify oil base matter such as make-up, lipstick, oils and greases, fats, hair creams and dressings, shoe polish, floor wax, and inks, and is equally effective on water based matter such as pet stains, coffee, cola, tea, food spills, grass stains, wine and liquor.

For spot removal, saturate spot with product and allow to penetrate into stain. Absorb product and dissolved matter with a paper towel or cloth. Re-apply product to spot and agitate slightly. Repeat this procedure until paper towel or cloth has dissolved all of the spot and allow to dry.

**DIRECTIONS**

To dispense the product, attach the LockNLoad Jr. dilution unit or adapter cap onto the Green insert in the opening of the bottle. The dispensing system is factory set to properly dilute the concentrate with water. For a water driven system, connect the system to a water line to dilute the product.

LockNLoad Jr. products are designed to be used with a dilution system. Using the dispensing system will ensure that the concentrate is diluted correctly. The green insert in the opening of the container should never be removed. If the green insert has been removed, the contents of the container and the container should be properly disposed of.

**PRECAUTIONARY STATEMENTS**

**Prevention:** Wear eye protection/face protection. Wash hands and exposed skin thoroughly after handling. Wear protective gloves. **Response:** IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor/medical professional. IF ON SKIN: Wash with plenty of water for at least 15 minutes. Specific treatment (see section 4 on the Safety Data Sheet). If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.
