ABOUT THIS PRODUCT

#8 Carpet Extraction Cleaner is a proprietary blend of low foaming surfactant, organic acids, water conditioning agents and optical brighteners.

#8 can be diluted directly into the solution tank of a carpet extractor or can be diluted into a sprayer. Pre-spray the carpet and then use a carpet extractor with fresh water to rinse. Once carpet and upholstery have been cleaned, a fan should be used to help the surface dry. Always make sure that the surface is completely dry before allowing regular traffic back into the area.

A color fastness test in a hidden area should always be performed before extraction on colored carpet and fabrics. This product can also be used as a carpet bonnet cleaner.
