## HEAVY DUTY CARWASH

### PHYSICAL PROPERTIES

**Appearance:** Clear Liquid

**Specific Gravity:** 1.14

**Odor:** Characteristic

**Ph (Conc.):** 14

**Flash Point:** >385°F (196°C)  
estimated.

### PACKAGING

4X1 gal, 5 gal, 55 gal

### ABOUT THIS PRODUCT

This product is formulated for maximum performance in automatic touchless carwash equipment. Also suitable as high pressure soap in self serve bays. This highly concentrated liquid dilutes up to 200 to 1 for low pressure presoak and up to 800 to 1 (tip dilution) in high pressure applications. Solubilizes surface grime and removes deep set road film and tough water deposits without friction. Unique, flash rinsing detergent requires less water to rinse and leaves no residue. This product is also formulated for maximum biodegradability. Quick breaking foam will not build up in drains or sewers.

### DIRECTIONS

**Automatic Bays & Tunnel/Conveyors:** Use this product for low pressure soap applications. Pre-dilute a minimum 100 to 1 and up to 150 to 1 in soft water systems. Apply as a presoak solution generously and allow to dwell for 20 to 30 seconds (without drying) before rinsing or second soap application. Pressure rinse thoroughly with clean water followed by spot-free rinse. In many systems, rinse cycles can be adjusted to reduce water usage.

**High Pressure Self-Serve:** Pre-diluted between 48 and 75 to 1 to attain a final tip dilution of 650 to 800 to 1. Pre-soak vehicle surface with high pressure solution and follow with concentrated high pressure spray. After entire vehicle has been washed with concentrated spray, rinse thoroughly with high pressure water and apply spot-free rinse.

### PRECAUTIONARY STATEMENTS

**Prevention:** Wash hands and exposed skin thoroughly after handling. Do not breathe dust or mists. Wear protective gloves/protective clothing/eye protection/ face protection. **Response:** Call a POISON CENTER/doctor/medical professional if you feel unwell. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Specific treatment: see first aid instructions in section 4. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. **Storage:** Store locked up. **Disposal:** Dispose of contents/containers in accordance with local/regional/ national/ international regulations.
