ABOUT THIS PRODUCT

This powdered peroxide product is formulated to produce excellent destaining properties. It is safe to use on all types of plastic and china and will not leave a residue, and will not damage dishes or glassware if overused. This product can be used in all water temperatures.

DIRECTIONS

Read entire container label before using this product.

For plastic or china tableware:

- Immerse all tableware in hot water.
- Dissolve ½ to 2 oz. of product per gallon of water, depending on severity of stain.
- Soak for 10 minutes to 3 hours as necessary to remove stains.
- Drain solution and rinse wares thoroughly with potable water.

For coffee and tea urns:

- Fill urn with very hot water (minimum 175° F).
- Add 2 tablespoons of product per 5 gallons of water.
- Let soak for 30 minutes to 1 hour to loosen, and soften stains.
- Scrub any remaining stains with a brush to loosen stuck on deposits.
- Drain and rinse thoroughly with potable water.
