

# SAFETY DATA SHEET

## 1. Identification

|                                      |   |
|--------------------------------------|---|
| <b>Product Identifier</b>            | <b>Glass and Hard Surface Cleaner</b>                   |
| <b>Other means of identification</b> |   |
| Product code                         | CU-LNL-101, 101-CLL, 1-BPNP, 1-CLLE, CU-JRL-1           |
| <b>Recommended use</b>               | Glass and solid surface cleaner.                        |
| <b>Recommended restrictions</b>      | Professional use only.                                  |
| <b>Manufacturer information</b>      |   |
| Company name                         | <b>Chemical Universe, Inc.</b>                          |
| Address                              | 1841 Vernon St.<br>North Kansas City, MO 64116          |
| Telephone                            | (816) 471-3602  |
| FAX                                  | (816) 474-3302  |
| <b>Emergency phone number</b>        | PERS 24-hour Emergency (800) 633-8253<br>(800) 633-8253 |

## 2. Hazard(s) Identification

|                              |                   |             |
|------------------------------|-------------------|-------------|
| <b>Physical hazards</b>      | Flammable Liquids | Category 3  |
| <b>Health hazards</b>        | Eye irritation    | Category 2A |
|                              | Skin irritation   | Category 2  |
|                              | Aspiration hazard | Category 1  |
| <b>Environmental hazards</b> | Not classified.   |             |
| <b>OSHA defined hazards</b>  | None.             |             |
| <b>Label elements</b>        |                   |             |

|                                |  |
|--------------------------------|--|
| <b>Signal word</b>             | <b>DANGER</b>  |
| <b>Hazard statement</b>        | Flammable liquid and vapor.<br>Causes skin irritation.<br>Causes serious eye irritation.<br>May be fatal if swallowed and enters airways.  |
| <b>Precautionary statement</b> |  |
| <b>Prevention</b>              | Keep away from heat/sparks/open flames/ hot surfaces. No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ ventilating/ lighting/ equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Wear protective gloves/ eye protection/ face protection. Wash hands and face thoroughly after handling.   |
| <b>Response</b>                | <b>IF ON SKIN:</b> Wash with plenty of soap and water. For specific treatment: see section 4 on the Safety Data Sheet. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.<br><b>IF IN EYES:</b> Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.<br><b>IF ON SKIN (or hair):</b> Take off immediately all contaminated clothing. Rinse skin with water/shower. In case of fire: Use dry sand, dry chemical, or alcohol-resistant foam for extinction. |

# SAFETY DATA SHEET

**IF SWALLOWED:** Immediately call a POISON CENTER/doctor/medical professional. Do NOT induce vomiting. If vomiting occurs keep the victims head up to prevent stomach contents from entering the lungs

**Storage**

Store in a well-ventilated place. Keep cool. Store locked up.

**Disposal**

Dispose of contents/container in accordance with local/regional/national/international regulations.

**Hazard(s) not otherwise classified (HNOC)**

None.

**Supplemental information**

None.

### 3. Composition/information on ingredients

| Mixture Component(s)                     |            |       |
|--|------------|-------|
| Chemical name                            | CAS number | %     |
| 2-propanol                               | 67-63-0    | 15-20 |
| 2-butoxyethanol                          | 111-76-2   | 15-20 |
| Other components below reportable levels |            | 60-70 |

### 4. First-aid measures

**Inhalation**

Move to fresh air. Call a physician if symptoms develop or persist.

**Skin contact**

Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.

**Eye contact**

Rinse with water for at least 15 minutes. Remove contact lenses if present and easy to do so. Get medical attention if irritation develops and persists.

**Ingestion**

Rinse mouth. Get medical attention if symptoms occur. Only induce vomiting at the instruction of medical personnel.

**Most important symptoms/effects, acute and delayed**

Dermatitis. Rash.

**Indication of immediate medical attention and special treatment needed**

Provide widespread support measures and treat symptomatically. Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to the hospital. Keep victim under observation. Symptoms may be delayed.

**General information**

Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. Wash contaminated clothing before reuse.

### 5. Fire-fighting measures

**Suitable extinguishing media**

Water fog. Foam. Carbon dioxide (CO<sub>2</sub>). Dry chemical powder, sand, or earth may be used for small fires only.

**Unsuitable extinguishing media**

Do not use water jet as an extinguisher, as this will spread a liquid-fueled fire.

**Specific hazards arising from the chemical**

Vapors may form explosive mixtures with air. Vapors may travel considerable distance to a source or ignition and flash back. This product is a poor conductor of electricity and can become electrostatically charged. If sufficient charge is accumulated, ignition of flammable mixtures can occur. To reduce potential for static discharge, use proper bonding and grounding procedures. During fire, gases hazardous to health may be formed.

**Special protective equipment and precautions for firefighters**

Self-contained breathing apparatus and full protecting clothing must be worn in case of fire.

**Fire-fighting equipment/instructions**

In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.

# SAFETY DATA SHEET

**Specific methods** Use standard firefighting procedures and consider the hazards of other involved materials.  
**General fire hazards** Flammable liquid and vapor.

## 6. Accidental release measures

**Personal precautions, protective equipment, and emergency procedures** Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Avoid inhalation of vapors or mists. Ensure adequate ventilation. Remove all sources of ignition. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

**Methods and materials for containment and cleaning up** Eliminate all ignition sources. Use only non-sparking tools. Take precautionary measures against static discharge. Keep combustibles away from spilled material.

Large spills: Stop the flow of material if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements, or confined areas. Following product recovery, flush area with water.

Small spills: Absorb with earth, sand, or other non-combustible material and transfer to container for later disposal. Clean surface thoroughly to remove residual contamination.

Never return spills to original container for re-use. For waste disposal, see section 13 of the SDS.

**Environmental precautions** Avoid release to the open environment or into sewer systems without authorization. Avoid discharge into areas not consistent with package labeling.

## 7. Handling and storage

**Precautions for safe handling** Do not manage, store or open near an open flame, sources of heat or sources of ignition. Do not smoke. Use explosion proof equipment and non-sparking tools. Take precautionary measures against static discharge. Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

**Conditions for safe storage, including any incompatibilities** Keep away from heat, sparks, and open flame. Ground/bond container and equipment. Store in original tightly closed container. Store away from incompatible materials (see section 10 of the SDS).

## 8. Exposure controls/personal protection

### Occupational exposure limits

#### US OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

| Components      | Type | Value   |
|-----------------|------|---------|
| 2-propanol      | STEL | 500 ppm |
|                 | TWA  | 400 ppm |
| 2-butoxyethanol | PEL  | 50 ppm  |

#### US ACGIH Threshold Limit Values

| Components      | Type | Value   |
|-----------------|------|---------|
| 2-propanol      | STEL | 400 ppm |
|                 | TWA  | 200 ppm |
| 2-butoxyethanol | TWA  | 20 ppm  |

# SAFETY DATA SHEET

## Biological limit values

### ACGIH Biological Exposure Indices

| Components      | Value    | Determinant | Species | Sampling Time                    |
|-----------------|----------|-------------|---------|----------------------------------|
| 2-propanol      | 40 mg/L  | Acetone     | Urine   | End of shift at end of workweek. |
| 2-butoxyethanol | 200 mg/g | Creatinine  | Urine   | End of shift.                    |

## Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits.

## Individual protection measures, such as personal protective equipment

### Eye/face protection

Avoid contact with eyes. Wear safety glasses with side shields (or goggles).

### Skin protection

#### Hand protection

The use of gloves impervious to the specific material managed is advised to prevent skin contact. Users should check with manufacturers to confirm the breakthrough performance of their products. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. Suggested protective materials: Nitrile and PVC rubber.

#### Other

None.

### Respiratory protection

In case of insufficient ventilation, wear suitable NIOSH-approved respiratory equipment.

### Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

## General hygiene considerations

When using do not smoke or use chewing tobacco. Always observe good personal hygiene measures, such as washing after managing the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

## 9. Physical and chemical properties

### Appearance

#### Physical State

Liquid

#### Color

Blue

#### Odor

Citrus

#### Odor threshold

Not available

#### pH

7-8.

#### Melting/freezing point

22.5°F (-5.5°C) estimated.

#### Initial boiling point and boiling range

210°F (99°C) estimated.

#### Flash point

94.5°F (34.7 °C) estimated

#### Evaporation rate

Not available

#### Flammability

Not available

#### Flammability Limits

##### Upper

Not available

##### Lower

Not available

#### Vapor pressure

Not available

#### Vapor density

Not available

#### Specific gravity (water=1)

0.96

# SAFETY DATA SHEET

**Solubility in water** Complete  
**Partition coefficient (n-octanol/water)** Not applicable  
**Auto-ignition temperature** Not available  
**Decomposition temperature** Not available  
**Viscosity** Not available

## 10. Stability and reactivity

**Reactivity** This product is stable and non-reactive under normal conditions of use.  
**Chemical stability** Material is stable under normal conditions. Store in a cool dark place.  
**Possibility of hazardous reactions** Hazardous polymerization does not occur.  
**Conditions to avoid** Avoid heat, sparks, open flames, and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.  
**Incompatible materials** Oxidizing agents, strong acids.  
**Hazardous decomposition products** Carbon dioxide, carbon monoxide.

## 11. Toxicological information

### Information on routes of exposure

**Ingestion** Expected to be low ingestion hazard.  
**Inhalation** Prolonged inhalation may be harmful.  
**Skin contact** Causes skin irritation.  
**Eye contact** Direct contact with eyes may cause temporary irritation.  
**Symptoms related to the physical, chemical, and toxicological characteristics** Dermatitis. Rash.  
**Acute toxicity** Not established.

| Product Glass & Multi-Surface Cleaner (CAS mixture)                        |                       |                       |
|--|-----------------------|-----------------------|
| Exposure Classification  | Route and Species     | LD <sub>50</sub>      |
| Acute  | <i>Dermal, rabbit</i> | > 8,760 mg/kg         |
| <b>Acute</b>   | <i>Oral, rat</i>      | 6,100 mg/kg estimated |
| *Estimates for product may be based on additional component data not shown |                       |                       |

**Skin corrosion/irritation** Causes skin irritation.  
**Serious eye damage/ irritation** Causes serious eye irritation.  
**Respiratory sensitization** Not available.  
**Skin sensitization** Not available.  
**Germ cell mutagenicity** No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.  
**Carcinogenicity** This product is not expected to be a carcinogen.  
**OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)** Not Listed.  
**Reproductive toxicity** This product is not expected to cause reproductive or developmental effects.  
**Specific target organ toxicity – single exposure** Not classified.  
**Specific target organ toxicity – repeated exposure** Not classified.  
**Aspiration hazard** May be fatal if swallowed and enters airways.

# SAFETY DATA SHEET

## 12. Ecological information

| Ecotoxicity  |   |   |
|--|---|---|
| <b>Product</b>   | Glass & Multi-Surface Cleaner (CAS mixture) |   |
| <b>Aquatic</b>   | <b>Species</b>                              | <b>Test Results</b>                     |
| Crustacea  | Daphnia                                     | EC <sub>50</sub> (48 hr): 880 estimated |
| Fish   | Oncorhynchus mykiss                         | LC <sub>50</sub> (96 hr): 379 estimated |
| *Estimates for product may be based on additional component data not shown |   |   |

|                                      |  |
|--------------------------------------|--|
| <b>Persistence and degradability</b> | No data available. Chemicals of this class are reported to be moderately degradable in a toxic environment   |
| <b>Bioaccumulative potential</b>     | Potential to bioaccumulation is expected to be low. Highly water soluble   |
| <b>Mobility in soil</b>              | No data available. Chemicals of these classes are highly water soluble and will partition readily to water and weakly to particles in low-clay soil matrices. They are expected to exhibit moderate to high mobility in saturated and semi-saturated soils |
| <b>Other adverse effects</b>         | No other adverse environmental effects known ( <i>i.e.</i> , ozone depleting substance, tropospheric ozone precursor, greenhouse gas emission, endocrine disruptor, or other deleterious environmental effect)   |

## 13. Disposal considerations

|   |   |
|---|---|
| <b>Disposal instructions</b>              | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.  |
| <b>Local disposal regulations</b>         | Dispose in accordance with all applicable regulations. As a flammable liquid, this product is prohibited from land disposal   |
| <b>Hazardous waste code</b>               | The waste code should be assigned in discussion between the user, the producer, and the waste disposal company. As packaged, the product would be classified as an ignitable waste (D001) under provisions of 40 CFR part 261 Subpart C |
| <b>Waste from residues/unused product</b> | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner. (See: Disposal instructions).                       |
| <b>Contaminated packaging</b>             | Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may contain product residue, follow label warnings even after container is emptied.                             |

## 14. Transport information

### USDOT

|                                     |  |
|-------------------------------------|--|
| <b>UN number</b>                    | UN1993   |
| <b>UN proper shipping name</b>      | Flammable liquids, n.o.s. (Contains: Isopropanol)                        |
| <b>Transport hazard class(es)</b>   |  |
| <b>Class</b>                        | 3  |
| <b>Subsidiary risk</b>              | -  |
| <b>Packaging group</b>              | III  |
| <b>Special precautions for user</b> | Read safety instructions, SDS, and emergency procedures before handling. |
| <b>Marine pollutant</b>             | No   |
| <b>Special precautions for user</b> |  |

# SAFETY DATA SHEET

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code** This product is not intended to be transported in bulk.

DOT Label/Placard

## 15. Regulatory information

### US federal regulations

**SARA 302 Extremely hazardous substance** Not listed.

**SARA 304 Emergency release notification** Not listed.

### SARA 311/312 Hazard Categories

Immediate Hazard - Yes

Delayed Hazard – No

Fire Hazard – Yes

Pressure Hazard – No

Reactivity Hazard – No

**SARA 313 (TRI reporting)** 2-butoxyethanol (Glycol ether category)

**California Proposition 65** **California Safe Drinking Water and Toxic Enforcement Act of 1986**  
This product is not known to contain any chemicals currently listed as carcinogens or reproductive toxins under California Proposition 65 at levels which would be subject to threshold determination and Safe Harbor notification (12/2021)

## 16. Other information, including date of preparation or last revision

**Issue date** 1/14/2015  
**Revision date** 2/4/2022  
**Version #** 4  
**HMIS® ratings** Health: 2  
Flammability: 2  
Physical hazard: 0

## SAFETY DATA SHEET
